FIBER LASER CUTTING MACHINE

Discover Innovation with STPL's LSM FC 4020 SE Fiber Laser Cutting Machine – a true game-changer in precision cutting technology. Encased within its advanced body, this laser machine incorporates Anti Reflective Technology for flawless, reflection-free cutting.

Pioneering a new era of high-power laser cutting, it's designed for unrivaled performance. Choose from a variety of power options, including 3KW, 6KW, and 12KW, to perfectly match your cutting requirements.

At STPL, we're committed to delivering quality and cutting-edge solutions. With the LSM FC 4020 SE, you can expect the highest levels of accuracy and efficiency in your cutting processes. Join us in the future of laser cutting.

TOOLING SOLUTIONS

We at Robin Precision Products Pvt. Ltd. strive hard to offer better quality tools at very attractive prices.

Our mission is to create optimum tooling solutions that help our valued customers meet their CNC Tooling challenges no matter how demanding

those challenges may be.

To do this, we focus our every resource necessary to:

- Understand the customer's needs.
- Design and develop tooling that matches the customer's requirement for speed, precision and tool life.
- Deliver tools on schedule every time.
- Follow-up after the sale to ensure Customer Satisfaction.

HYDRAULIC EXCELLENCE

Tekson hydraulics corporation has over 25 years of experience in supplier & stockist authorized partner for best hydraulics product.

We are cover all hydraulics industries like:-

1. Hydraulic press machine
2. CNC lathe & milling
3. Ceramic industry
4. Foundry industry
5. Textile industry
6. Plastic industry
7. Pharmaceutical and chemical industry
8. Material handling
9. Pipe industry
10. Construction and earthmoving

Explore the world of hydraulic excellence with Tekson Hydraulics Corporation. Contact us today to discover how we can elevate your fluid power solutions.

INVESTMENT CASTINGS AND MACHINED COMPONENTS

An ISO & IATF certified Manufacturer and Exporter of Investment Castings and Machined

Components, GMTPL specializes in Investment Castings and offers them in finished, semi-finished, and raw conditions. Additionally, we provide various metal parts in machined as well as in sub-assembled condition, including sand castings, forgings, bar stock turned parts, and customized components.

Our resourceful foundry with an installed capacity of 80 MT/Month with well-equipped machine shop with 30+ machines with in-house CMM, VMM, Surface testing facilities, capable of producing castings up to 75 kilograms in weight as single piece.

SPECIALIZED CASTINGS OF DUCTILE IRON AND CAST IRON

We specialize in manufacturing various casting components of Valves & Pumps, Earthmovers, Automotive, Mining, Marine, Lifting, Gear Box, Packaging Machinery, Automobile, etc. sectors by Green Sand, Shell Moulding, CO2 Moulding & No-Bake Castings Processes from 2 kg to 350 kg.

Our Specialties: -

1. Foundry is approved by ISO 9001:2015 (Tuv Sud)
2. Weight range: 2kg to 100kgs Per pc. In Green Sand and shell moulding casting.
3. We can produce various materials from Cast Iron & Ductile Iron (SGI) following international standards like DIN, EN, ISO, IS, GOST, ASTM, ASME, etc.
4. Chemical and Mechanical tests: PMI Machine, Spectro Machine, Digital Microscope, Tensile Machine, Impact Test Machine, hardness machines, etc.
5. Supplying Fully machined casting components in CNC & VMC.
