The 7th PUNE MACHINE TOOLS SHOW Has Arrived!

Pune, a pivotal manufacturing hub for automotive and ancillary industries, boasting production units of esteemed brands such as Mercedes Benz, Volkswagen, TATA, Mahindra, MAN Trucks, Jaguar and Range Rover, Bajaj, and more, presents an optimal backdrop for the 7th Pune Machine Tools Show (PMTS), Scheduled for 25-28 April 2024 at the Auto Cluster Exhibition Centre, Pune. This event is a unique platform for unveiling innovative advancements in the machine tools sector, aligning with Pune's status as a manufacturing nucleus.

Hosting approximately 4,000 automobile and ancillary production units, Pune's strategic importance is augmented by India's burgeoning stature as a global manufacturing powerhouse, fuelled by initiatives like "Make-in-India" and "Atmanirbhar Bharat." With institutions like the Automotive Research Institute of

India and the Auto Cluster Development & Research Institute located here, Pune's role in India's ascent to the world's third-largest automobile market by 2026 is crucial. The 7th PMTS is set to catalyze business growth, offering a platform for global networking, understanding the latest industry trends, and fostering new business relationships.

The 7th PMTS is an unparalleled opportunity to engage with the latest in automotive and machine tool sectors, offering invaluable insights and avenues for business expansion. This edition, superior in scale and scope, is set to unveil cutting-edge developments in the global machine tools industry

Key investment highlights in Pune's automotive sector

- Aim to elevate the auto industry to INR 15 trillion by end of 2024

- Projected CAGR of 49% from 2022-2030 in the EV market
- Anticipation of approximately 5 million direct and indirect jobs in the EV sector by 2030
- EV financing market estimated to reach \$50 billion by 2030
- A 70% increase in production capacity planned over the next two years by Mahindra group
- Bajaj Auto to invest INR 500 crore in its EV segment in FY 2024

The legacy of eleven years encompassing five shows, engaging over two thousand participants from nine participating countries, and attracting a staggering three lakh visitors, reflects an enduring testament to the profound impact and sustained resonance of this remarkable endeavor.

EXHIBITORS' SPEAK

Mr. Maulik Patel, Executive Director, SAHAJANAND LASER TECHNOLOGY LIMITED

We are participating for the first time here but I think we missed the last 5 exhibitions! It has been a too good show! From the Day 1 we are able to get quality people who know what they want. ””

Mr. Dinesh Chaudhary, MD & CEO, ENERGY MISSION MACHINERIES (INDIA) LIMITED

We have almost 500 machines working here. With K & D exhibitions, we always have very good response. ””

Mr. Anup Kumar, Sales and Marketing Manager Metal Forming Division, S & T ENGINEERS PRIVATE LIMITED

In this exhibition after Corona, the response of people is very good. This exhibition is very fruitful for us. ””

Mr. Ravi Parmar, Director, PARMAR CNC MACHINES (INDIA) LLP

We have had a good experience and good customers. We are certainly going to participate next year and bring more new technology here. ””

Mr. Kaushal Parmar, Managing Director, SOHIT ENGINEERING WORKS

We are participating for the first time to display our new circular saw cutting machine. We have a very good response. ””

ADDITIVE MANUFACTURING SOLUTIONS

Matrix Moon's vision is to be a one-stop additive manufacturing solutions provider to our customers in order to augment their scale of production, reduce cost and catalyse product innovation and design.

We offer 3D Printing solutions associated with various technologies such as DLP,SLA,SLS,MJP & Extrusion Printers. We are channel partners to 3D Systems ,USA and handle sales of wide arrays of 3D Printers which includes Figure 4, MJP2500 Plus, Ext 1070 Titan Pellet & DMP - Metal Printers.

- Production Tough: Production-grade stereolithography resin featuring long-term environmental stability, high toughness, and superior surface finish for large-scale plastic parts and mandrel tooling
- Rigid - Filled Material: High performance and temperature resistant, carbon fiber filled nylon.

THREAD CUTTING DIES & RETHRADING HEX DIE NUTS

We, at Nikopas Engineering Pvt. Ltd. are engaged in the manufacturing of high precision quality Thread Cutting Dies & Rethreading Hex Die Nuts at our factory at Tarapur (Dist. Palghar), Maharashtra, INDIA. Over the last four decades, Nikopas has established itself as a prominent manufacturer, supplier and exporter of Thread Cutting Dies & Rethreading Hex Die Nuts in HSS and Carbon Steel. Owing to our technical expertise and experience, we are in a position to cater to a variety of standard and non-standard demands of our customers, by providing customized threading solutions.

Nikopas exports nearly 60% of its production.

PRESSES, PRESS BRAKES & SHEARING MACHINE

Ravi Press Brakes offers CNC Press Brakes. Shearing Machine and Power Presses we are manufactures and exports of technically advanced CNC press brake which comes having all the most recent features as per industry standards and requirements. CNC Press Brake has been designed to present minimum deflections and maximum rigidity. The machine sees a pair of hydraulic cylinders, coordinated by a heavy duty torque tube welded to the lever. This facility has been put in to make sure supreme parallelism between them and the table working surface. Our Machines Delivers highest accuracy and repeatability with highest productivity.

Our CNC press brakes are economical in Price with highest level of satisfaction.

9th RAJKOT MACHINE TOOLS SHOW & 2nd CASTINGS AND FOUNDRIES EXPO happening from 25th to 28th September 2024 at NSIC Ground, Rajkot

The RAJKOT MACHINE TOOLS SHOW is the foremost industrial trade show for the industrial fraternity of Rajkot and its periphery. The 9th edition is getting even better with the addition of the Castings and Foundries Expo. From engines, pumps, and machine tools to bearings, auto parts, castings, and even Make in India rifles, Rajkot is a versatile manufacturing hub. The city's industrious DNA has led to the development of well-defined clusters for Engineering,

Machine Tools, Bearings, Auto Parts, and Foundry, among others. The Machine Tools cluster alone boasts 325 opera-

tional units with a turnover of approximately Rs. 800 crores and a workforce of about 10,000 employees

from various industries including engineering, automotive, trading, railway, and more, both domestically and internationally.

What are the Benefits of Participation?

- Delve into a wide array of casting materials, techniques, and equipment.
- Stay informed about the newest trends and advancements that are influencing the industry's future.
- Connect with top manufacturers, suppliers, and experts in the field.
- Engage in informative seminars and workshops focusing on casting technologies and optimal approaches.
- Uncover potential business prospects and opportunities for collaboration.

9th RAJKOT MACHINE TOOLS SHOW PROJECTIONS

In recent times, Rajkot has emerged as a prominent center for supply chain management. Foundries and engineering units have implemented cutting-edge automation and modernization techniques in their production lines, thanks to new investments. Leveraging its cost competitiveness, Rajkot has drawn the interest of high-caliber buyers

PUNJAB MACHINE TOOLS SHOW 2024 - Announcing New Dates and Venue

As India and the rest of the world unite to felicitate the entrepreneurial enthusiasm and industrial productivity, it is time to unfold the unearthed potential of the already sparkling diamond Punjab, bestowed on the head of our country and at a strategic location on the Asian terrain.

The Indian machine tools sector offers several opportunities for investment. Given the current gap between demand

and supply, there is a clear need for adding capacities in this sector. The industry is moving towards increasingly sophisticated CNC machines, driven by demand from key user segments, such as automobiles and consumer durables, Aerospace, etc. Punjab, along with its

neighbouring states has been instrumental in catering to this demand.

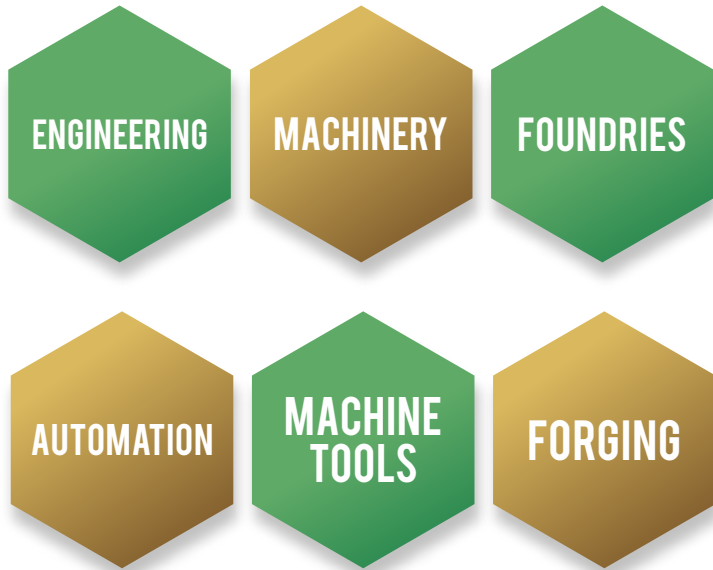

Punjab Machine Tools Show 2024 will endeavour to bring together new ideas, products, innovations, industrial breakthroughs and promotional excellence.

Punjab Machine Tools Show 2024 shall focus on the following sectors to create the best of business experiences

21st to 24th NOV '24

FAIR GROUND 2, SECTOR - 34, CHANDIGARH

CELEBRATING EXCELLENCE IN

Key Industrial Clusters:

- The Forging Industry Cluster at Ludhiana and Jalandhar
- Sewing Machine & Parts Industry Cluster, Ludhiana
- Auto Parts Industry Clusters, Phagwara, Jalandhar and Ludhiana
- Agricultural Implements Industry Cluster, Moga

CHEERS

Celebrating & Awarding the best of the industrial goods, processes and practices.

OUTSHINE

Industrial show & display arena for brands to showcase their best products & deals.

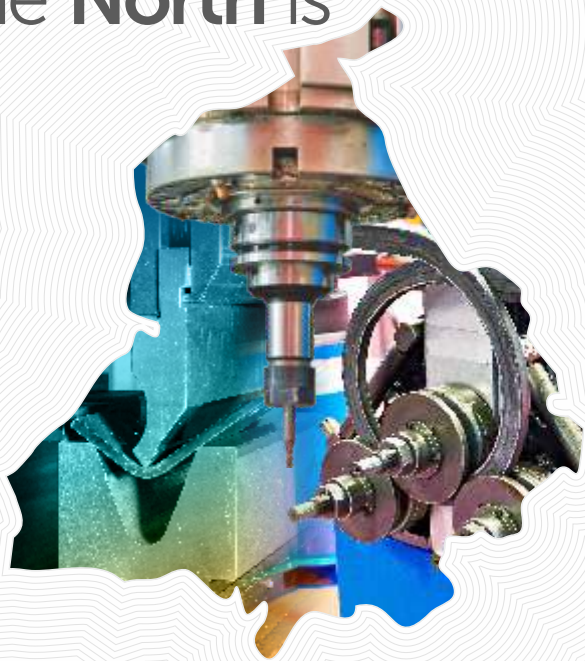

NETWORK DEEPLY

Connect with your industry peers, share insights and trends. Open new possibilities for collaboration.

SPARKS

Debates over Industry's most pressing issues & controversial matters, hosted by students and colleges from Punjab's leading Universities.

Growth is where
the North is

10th INDIA MACHINE TOOLS SHOW 2025

K and D Communication Ltd. (KDCL) is excited to unveil the scheduling and location details for the landmark 10th edition of the India Machine Tools Show, set to be hosted in New Delhi in 2025. This milestone event will be held at the prestigious Yashbhoomi Convention Centre, located in Dwarka, New Delhi, from the 15th to the 18th of May, 2025. As we prepare to celebrate this significant edition, marking our transition into double digits, the occasion holds a special place in our hearts and history. With the 10th iteration of the show, we at KDCL are dedicated more than ever to scaling new heights, promising to deliver an event that surpasses all previous editions in scope, innovation, and

impact. We pledge our unwavering commitment to ensuring that this upcoming event will not only meet but

Where & When

**Yashbhoomi Convention Centre,
Dwarka, New Delhi
from 15th to 18th May 2025**

exceed the expectations of our attendees, exhibitors, and partners, making it an unforgettable experience for all involved.

The India Machine Tools Show is a platform that showcases groundbreak-

ing ideas and innovations in machine tools, engineering, and factory automation. Each edition of the show sees the active participation of over 500 companies, including a substantial presence of foreign firms, drawing in around 40,000 attendees.

Held in New Delhi, the capital city of India, this trade exhibition attracts participants from across the country, including neighboring northern states.

Given the current global demand for secure supply chains, coupled with India's emergence as a manufacturing powerhouse and its status as the world's fastest-growing major economy, the upcoming ninth edition of the India Machine Tools Show will host international pavilions representing key nations keen on contributing to India's growth story. The 2025 edition of the show is poised to create significant business prospects and enduring commercial successes.
