DWARKA, NEW DELHI

### Technology For Global Manufacturing

The trade show regularly held in the Indian capital since two decades serves Indian manufacturing adopt the world class technology it requires to meet the burgeoning domestic and international demand as India fast forwards to become the 3rd largest economy and a reliable manufacturing hub integral to the global supply chain.

It also serves the Indian capital goods and engineering industries particularly the backbone MSME segment showcase their genius at innovation and indigenization, witness cutting edge foreign technology and learn more about the requirements of Indian manufacturing going forward.

Policy makers from the government and industrial bodies gain insight through direct interaction with the industry stakeholders.

Previous nine editions of the trade show witnessed increasing attendance of high caliber exhibitors and visitors from India and abroad and the resulting growth opportunities were highly appreciated by all stakeholders.

This 10th edition, primed for greater success is fittingly being held at the brand new venue being developed by the Government of India to represent the ethos of a nation soon to be the third largest global economy
